

Shared Savings Program ACO Public Reporting Instructions

with Pre-Populated Template

Introduction

The purpose of this document is to provide ACOs participating in the Shared Savings Program with a public reporting template, pre-populated with ACO-specific information obtained from CMS records. Information to populate the template is obtained from ACO reported information submitted to the [ACO Management System](#) (ACO-MS). ACOs participating in the Shared Savings Program are required to publicly report ACO organizational information and performance results on a designated webpage, per 42 CFR § 425.308.

Instructions

ACOs will receive a pre-populated template from CMS near the start of every performance year and shortly after performance year quality and financial reconciliation concludes. ACOs that completed the previous performance year must use the template to report that year's final financial and quality results. All ACOs must use the template to report other organizational changes as needed. At both of these junctures, each ACO must take the following steps to meet the Shared Savings Program's public reporting requirements:

1. Verify the pre-populated information is correct. If any of the pre-populated information is incorrect, please notify CMS by emailing SharedSavingsProgram@cms.hhs.gov. In the Subject line of your email, please include the phrase "Public Reporting Template" and your ACO ID. CMS will review your email request and advise, as necessary. If you find an error with your organizational information, please correct it in [ACO-MS](#).
2. Provide the remaining information in the (unpopulated) highlighted fields in the template and remove the highlighting once completed.
3. Report all information on your ACO's public reporting webpage. ACOs can select one of two ways to report it. 1) Display all of the information from the completed template on the webpage using existing webpage styles (e.g., fonts, text sizes, headers). Or, 2) create a PDF of the completed template, without modifying the format, and link to it from your public reporting webpage:
 - **Remove all yellow highlighting and these instructions before displaying template content on the webpage.**
 - **Do not add data that isn't required or omit data from the template.**
 - **Do not include any taxpayer identification numbers (TINs) on the template.**
4. **Now that the PY 2019 ACO Participant List has been certified, you must update your public reporting webpage using the public reporting information provided below by March 14, 2019.** If there are any changes to your ACO's organizational information throughout the year that you are required to publicly report, ACOs must update your public reporting webpage within 30 days of the change. Please make corresponding updates in ACO-MS because ACO-MS is CMS' source for data that is made publicly available.

Your ACO's pre-populated template is included in the subsequent pages of this document.
